

CH. III: METHODS OF PRODUCTION

FRAPPE

A blended iced coffee drink combining toddy-brewed iced coffee, frappe powder, and ice.

- 1 Combine iced coffee, frappe powder, and ice in a blender as per the ‘flavor standard’.
- 2 Blend until smooth.
- 3 If the customer request whip-cream, top the drink such that a to-go lid can easily fit over the whip-cream without spilling.

Notes:
