CHAPTER V &gt; WHAT IS TEA? &gt; ICED TEA ON AN ICED TEA BREWER

# CH. V: METHODS OF PRODUCTION

## ICED TEA ON AN ICED TEA BREWER

- 1** To brew a 3-gallon batch on an iced tea brewer, put a paper filter into the brew basket, then put either 3 x 1-gallon iced tea pouches, 1 x 3-gallon iced tea pouch, or 3.5oz loose tea into the filtered basket.
- 2** Center the dispenser under the brew basket, then brew your batch. Wait until the batch is completely done brewing before dispensing any iced tea, as it will brew in stages.
- 3** Store the iced tea in the fridge. It will keep up to 24 hours.
